

# Lise Lewis

## Associate Consultant

Lise's early experience as an HR manager in an international consultancy service was followed by a career in the public sector working with civil engineers, as Corporate Learning and Development Manager and then heading up HR for the Information and Library Services.

After designing and implementing a competency framework integral to a performance management system for 18,000 employees, Lise set up her own consultancy which provides executive coaching services as well as coaching training and coach supervisor training. She is currently President of the European Mentoring and Coaching Council (EMCC).

Lise lives in Cheltenham with her family (including Charlie the dog and Bonnie the Cat) and enjoys art classes, cycling, theatre, cinema, eating out and jazz. And when all that gets boring she turns her attention to her part-time Professional Doctorate studies in executive coaching.
